

Gun Violence Prevention Challenge Summit & Hack-a-thon

April 13 – 15, 2018 | Boston, Massachusetts

Started out in 1986 as a First Responder. Throughout my career, I have been certified as an EMT, EMT-D, EMT-I, EMT-CC, and EMT-P. I was in charge of my college ambulance service (University at Albany) serving 16,000 students as well as visitors and faculty. I worked and volunteered for a number of ambulance services throughout the state of NY including Albany and Long Island. I went to Medical School, graduated from an Emergency Medicine Residency in Worcester, MA (where I was a Life Flight Physician), and have been an EMS Medical Director with many roles and responsibilities since 2001.
